Beginners

## **Course overview**

Welcome to the comprehensive Health and Safety at Work course! This 6-week program is designed to equip participants with the knowledge and skills necessary to promote a safe and healthy working environment. Whether you are an employee, manager, or business owner, this course will provide you with essential insights and practical tools to ensure workplace safety. Throughout the program, you will delve into various topics related to health and safety, including risk assessment, hazard identification, emergency preparedness, and legal obligations. By exploring these areas, you will develop a solid understanding of the key principles and best practices that underpin a safe work environment.

## **Course description**

Our experienced tutor will guide you through engaging lectures, interactive discussions, and real-life case studies to enhance your learning experience. You will gain valuable insights into the importance of effective communication, teamwork, and leadership in maintaining a culture of safety within your organization.

By the end of this course, you will be able to identify potential workplace hazards, assess risks, and implement appropriate control measures to mitigate them. You will also acquire the skills to conduct thorough accident investigations and develop robust emergency response plans. Additionally, you will gain a comprehensive understanding of relevant health and safety legislation and regulations, ensuring compliance and minimizing legal risks.

This course is suitable for individuals from a wide range of industries and sectors, including manufacturing, construction, healthcare, hospitality, and more. Whether you are new to health

and safety or seeking to refresh your knowledge, this course will give you the tools to positively impact workplace safety.

Join us for this 6-week journey and empower yourself with the knowledge and skills to create a safer and healthier work environment. Book now and take a proactive step towards ensuring the well-being of yourself and those around you.

Note: This course does not provide official certification but serves as a valuable learning opportunity for individuals interested in health and safety at work.

## **What financial support is available?**

We don't want anything to stand in your way when it comes to bringing Adult learning within reach so if you need anything to support you to achieve your goals then speak to one of our education experts during your enrolment journey. Most of our courses are government funded but if you don't qualify or need alternative financial help to access them then let us know.

## **What other support is available?**

All of our digital content, teaching and learning activities and assessments are designed to be accessible so if you need any additional support you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access.
