## Course description

This Intermediate Italian course is designed to build upon the foundations established in beginner level Italian courses. It is tailored for students who have a basic understanding of Italian grammar, vocabulary, and conversation and seek to further develop their language proficiency. Through a combination of interactive lessons, engaging activities, and authentic materials, students will expand

their linguistic skills and cultural knowledge.

Throughout the course, students will deepen their understanding of Italian grammar, focusing on more complex structures, verb tenses, and sentence construction. Emphasis will be placed on refining speaking and listening skills through interactive exercises, group discussions, and oral presentations.

Cultural immersion will play a significant role in the course, with students exploring Italian customs, traditions, and contemporary society. Through exposure to Italian art, music and cinema, students

will gain insight into the cultural richness of Italy while improving their language skills.

For example we will look at two iconic Italian dishes and discuss the ingredients and preparation.

By the end of the course, students will have developed a higher level of fluency and confidence in communicating in Italian, enabling them to engage in more advanced conversations, express opinions, and comprehend complex texts. This course serves as a bridge to further language proficiency and cultural understanding.
