## Course overview

Discover the wonderful world of numeracy through sewing and advanced sewing projects. It will help you to develop your numeracy skills in textile and advanced sewing. This course is suitable for those who have completed intermediate sewing courses and are familiar with existing sewing skills. Develop your skills further to advanced level by sewing, measuring and adjustment skills needed to make advanced sewing projects, and deepen your knowledge of calculations and textiles. You do not need any special tools to attend, just yourself and some enthusiasm. Start your advanced sewing journey today by registering for this course and discover where your sewing journey takes you!

## Course description

Sewing has become a popular craft enabling you to produce meaningful projects in a therapeutic way.

This advanced sewing projects course is aimed at improvers, so don't worry if you are not at an advanced level.

This course is based on face-to-face teaching in a built for purpose environment.

On this course,

you will learn about:

- taking measurements,

- managing commercial patterns,
- preparing fabric for cutting,
- using a sewing machine, stitching fabric,
- making seams, necks, inserting zips, making buttonholes.
- Learn to use an overlocker to create a professional finish.
- Widen your knowledge of fabrics.
- Make at least one garment and produce samples, recordings and photos for your folder (online and on paper) every week.

In addition to language structures; citizenship, employability and digital skills will also be embedded in the programme to help you develop valuable transferable skills.

Assessment of learning will be done regularly throughout the course so that you can map your academic progression with us at the WEA.

Information, advice and guidance will also be given to enable further course/professional progression to enable you to progress into other study areas or prepare you for the world of employment.

## **What financial support is available?**
