Course description

Building upon the foundational skills acquired in the Level 1 course Sewing into Business course, the Level 2 Sewing into Business progression course is tailored to propel learners further into the realm of garment creation and advanced stitching techniques. With a focus on practical application and skill refinement, this course delves deeper into the intricacies of garment construction.

Throughout the program, participants will expand their repertoire of sewing techniques, mastering the art of creating garments from scratch. From pattern drafting to fabric selection, students will learn to navigate the complexities of garment design with confidence. Special emphasis will be placed on precision sewing and attention to detail, ensuring professional-quality results.

In addition to garment construction, learners will explore advanced stitching methods, including the insertion of concealed zips and intricate stitching patterns. Through hands-on practice and

guided instruction, students will hone their skills, gaining the proficiency needed to tackle more complex projects.

Moreover, this course will continue to integrate business fundamentals into the curriculum, empowering participants to translate their sewing skills into entrepreneurial ventures. By the end of the course, students will not only possess the technical expertise to create stunning garments, but also knowledge on how to market these products.
