Course overview

This is the sixth course of six, aimed at elementary (A1/A2) level learners. This six-week course is for those whose first language is NOT English and will practice all four major skills in each session to develop reading, writing, speaking, and listening. Although this is a low-level English course, learners should be able to recognise sounds of the English letters and read simple lines of text prior to joining so that they would not struggle. Lessons will be delivered face-to-face using a range of teacher led and freer interactive activities to build learners' proficiency and confidence in the English language.

Course description

In this six-week ESOL course, (English for Speakers of Other Languages) learners will practice their reading, writing, speaking, and listening skills through the topics of: Quiz shows, Extremes, presents, life in different countries, stories, and cinema experiences. Grammar will focus on: comparative adjectives, superlative adjectives, would like to / like, adverbs, present perfect and present perfect vs past simple. Vocabulary will focus on: personality adjectives, the weather, adventures, common adverbs, been to, past participles. Functional English will include role playing a job interview for given jobs. Learners will engage in a range of activities including pair work, groupwork, games, written and verbal exercises. There will also be a written assignment in which learners will write a formal e mail to a hotel asking to make a reservation using an example for scaffolding. It is hoped that learners will progress to the next course in the series upon successful completion.
