Course overview

The Confidence in your Community course is an exciting additional course which engages learners for an addition session. The course is designed to give them the opportunity to build their confidence in and around their local community; whilst they are out there using their newly learned ESOL skills. The course will focus on identifying local resources (such as libraries, community centres and local services) to help learners to engage more in their communities and build their confidence in accessing these local resources and encouraging them to be more engaged locally also. By learning the vocabulary for and then identifying local services; learners can start their journeys towards engaging in the community more, benefiting themselves and their local area.

Course description

The Confidence in your Community course gives learners the chance to get to know their local community and improve their knowledge of their local amenities in order for them to engage more locally, offering them the chance to interact more with neighbours and locals as well as improving their lives in the UK overall.

The course is offered as one session and will be for around 2 hours. Learners will gain local knowledge as well as building their confidence in using their speaking and listening skills as they will be comfortable to make mistakes in a familiar environment with peers and a tutor they know.

The course is designed for ESOL learners who have just completed either an unaccredited or accredited course with the WEA and is a unique approach to ensuring that the learners are confident in using their learned skills, whatever level of ESOL they have just participated in.

Tutors will engage their cohorts in whatever activities they believe to be most beneficial for their learners and at the correct level for them. These activities will give them the opportunity to expand their vocabulary, their local knowledge and more about life in the UK in an informal manner enhancing their confidence in engaging more locally.
