## **Course description**

This course is for students to gain more practical counselling experience in triads (counsellor, client and observer) using the ten core counselling skills. To attend this course, it is useful if you have already completed a 6 week counselling skills course or have a Level 2/3/4 counselling qualification. This course has been created in response to counselling student feedback requesting this type of course and can be useful before progressing to the next level of counselling studies, sometimes even essential as some courses do not allow you to progress to the next level if you don't have enough practical experience. The course may be appropriate for some learners with a work experience or a background in a similar sector, so do not feel excluded if you do not have formal qualifications. You should be fine! However, if you wish to make a start on our 'Introduction to Counselling'; please search for that on the website. These courses run quite regularly so you could complete the Intro course and then progress onto this one. If you are feeling confident in your knowledge, please enrol here.
