Course description

English for Everyday Life (Entry 1) supports learners who want to develop the essential English skills needed for daily communication and greater independence in the UK. The course introduces simple speaking, listening, reading and writing tasks based on real-life situations such as meeting new people, asking for help, shopping, using public transport and talking about daily routines. Learners practise asking and answering simple questions, understanding short instructions and taking part in short conversations that reflect everyday interactions.

Reading and writing activities focus on recognising familiar words, reading simple sentences, understanding basic signs and completing short forms. Learners also practise writing key personal information and short phrases linked to daily life. A range of practical activities—such as role-play, pair work, picture-based tasks and guided writing—helps learners build confidence step by step. Visual support and repetition are used throughout to make learning accessible and to help learners remember new language.

The course also introduces simple communication strategies, including checking understanding, using polite language and recognising when to ask for help. These skills support learners in feeling more confident and prepared for real-life situations.

By the end of the course, learners will feel more comfortable using English in familiar everyday contexts and will be ready to progress to Entry 2 ESOL courses such as Practical English Skills.
